

March 13, 2018

I am pleased to recognize and support the inaugural BZN International Film Festival debuting in Bozeman June 7 – 10, 2018. This four-day festival is dedicated to supporting women in film through screenings, educational seminars and panels, filmmaker gatherings and community-wide events.

I am further pleased to support an event that has a strong partnership with Montana State University's film department and film makers.

Hosting this film festival gives Bozeman the opportunity to showcase our community. From the hotels, restaurants and galleries to the gorgeous vistas beyond, we are thrilled to share our gem of a town with a greater audience.

We are pleased to welcome such a dynamic and artistic festival to our community and look forward to enjoying what is sure to be an entertaining and educational event. May artists and creators come together for these four days and create new bridges and opportunities that continue well beyond this occasion.

I encourage all members of the Bozeman community to experience the festival this June – and all filmmakers to submit!

Sincerely,

Cynthia Andrus | Mayor
